## What is Crime Stoppers?

It is a program in which members of the community, the media, law enforcement, and businesses work together to solve crime.

Citizens are encouraged through cash rewards and a promise of anonymity to provide information leading to the arrest and indictment of criminals.

Crime Stoppers is governed by a board of volunteer directors dedicated toward making the community a safer place to live and work.

A director is elected by the board to oversee the Crime Stoppers Program, receive confidential information about crimes, and to forward the information to the appropriate law enforcement agency.

## How Does Crime Stoppers Work?

Each week the Crime Stoppers program broadcast information about unsolved crimes; Henderson-Vance's most wanted and additional information can be found on the internet at

[www.hvcrimestoppers.com](http://www.hvcrimestoppers.com)

Citizens may call the Crime Stoppers telephone number and report information about a case or any unsolved crime.

The caller is given a code number to ensure confidentiality and anonymity.

Crime Stoppers pays cash rewards of up to \$2000 for information leading to the arrest and/or conviction of criminals or the recovery of stolen property or illegal drugs.

## Getting Involved Without "Getting Involved"

Too often, people with vital information about crimes fail to contact the police because they fear retaliation or because they do not want to testify in court. The result of their reluctance is that many criminals are still terrorizing our streets and neighborhoods.

Crime Stoppers allows you to get involved and you do not have to give your name and you need not testify in court.

## Who Benefits From Crime Stoppers?

We all benefit when dangerous criminals are taken off the streets.

A criminal who is removed from our community is no longer a threat to you, your children, or your business. In a community where citizens work together to solve crimes, the threat of capture and swift punishment serves as a strong deterrent to would be criminals.
